

# DARPA

## The Defense Advanced Research Projects Agency

### *Harvesting Biology for Defense Technology*

### Booth #2112

Explore R&D opportunities within DARPA, meet DARPA Program Managers, and see technology demonstrations.

#### Monday- June 23<sup>rd</sup>

##### *Enhancing Human Performance*

11:00 AM	Metabolic Engineering & Dominance
11:50 AM	Persistence in Combat
12:40 PM	Continuous Assisted Performance
1:30 PM	Brain Machine Interface
2:20 PM	Augmented Cognition
3:10 PM	Bio-Computation
4:00 PM	Center of Excellence for Research In Ocean Sciences

#### Tuesday – June 24th

##### *Protecting Living Assets*

10:00 AM	Triangulation Identification for Genetic Evaluation of Risks (TIGER)
10:50 AM	Spectral Sensing of Bio-Aerosols
11:40 PM	Biosensor Technologies
2:10 PM	Activity Detection Technologies
3:00 PM	Advanced Diagnostics
3:50 PM	Biological Input/Output Systems
	Fundamental Research at the Bio:Info:Micro Interface
4:40 PM	Unconventional Pathogen Countermeasures
5:30 PM	Semiconductor Ultraviolet Optical Sources

#### Wednesday – June 25th

##### *Improving System Performance*

10:00 AM	Biologically Inspired Multifunctional Dynamic Robots
10:50 AM	Controlled Biological Systems
11:40 PM	Biomolecular Motors
12:30 PM	Simulation of Bio-Molecular Microsystems
1:20 PM	Bio-Magnetic Interfacing Concepts
2:10 PM	Spectroscopic Observation of Remote Environments
3:00 PM	Exoskeletons

\*\* Also, please join us for a dynamic discussion about emerging applications for biotechnology in biodefense, Monday June 23<sup>rd</sup>, 4:00 – 5:30 PM, RM 146B \*\*
